odeon

La collezione ODEON – nome latino del luogo deputato alle esibizioni canore e musicali - è un versatile sistema direzionale capace di armonizzare soluzioni d'arredo classiche e moderne. Propone infatti diverse tipologie di scrivanie e suggerisce differenti finiture per piani e rivestimenti, in modo da assecondare le esigenze estetiche e funzionali di una ampia clientela.

This collection called ODEON – after the Latin name for a place dedicated to musical performances – is a versatile executive system that combines classic and modern furnishing solutions. It offers various types of desk and different finishes for desktops and covering to meet the aesthetic and functional requirements of a wide variety of customers.

La collection ODEON – nom latin du lieu destiné aux exhibitions de chansons et de musique - est un système directionnel en mesure d'harmoniser des solutions de mobilier classiques et modernes. Elle propose en fait différents types de bureaux et suggère différentes finitions pour les plateaux et les revêtements, de façon à répondre aux exigences esthétiques et fonctionnelles d'une vaste clientèle.

Die Kollektion ODEON - der lateinische Name des für Aufführungen in Gesang und Instrumentalkunst genutzten Gebäudes - ist ein vielseitiges System für Direktionsbüros, das klassische und moderne Einrichtungslösungen harmonisch vereint. Es bietet nämlich verschiedene Schreibtischvarianten und unterschiedliche Ausführungen für Platten und Beschichtungen, um den ästhetischen und funktionellen Ansprüchen einer breiten Kundenschar gerecht zu werden.

La colección ODEON -nombre latino del lugar destinado a las exhibiciones de la canción y musicales- es un versátil sistema de dirección capaz de armonizar soluciones de mobiliario clásicas y modernas. De hecho propone varios tipos de escritorios y sugiere distintos acabados para los sobres y los revestimientos con el fin de satisfacer las exigencias estéticas y funcionales de una amplia clientela.

odeon

odeon

Nella sua versione più classica ODEON abbina il calore della finitura legno – Rovere Chiaro, Rovere Scuro e Noce Canaletto - a scrivanie di design sobrio e lineare. Il legno diventa prestigioso protagonista e conferisce allo spazio una rassicurante autorevolezza.

In its most classic version, ODEON matches the warm appeal of a wood finish – Light Oak, Dark Oak or American Walnut - with desks in simple linear design. Wood becomes a prestigious protagonist, adding reassuring importance to space.

Dans sa version la plus classique, ODEON allie la chaleur de la finition bois – Chêne Clair, Chêne Foncé et Noyer Canaletto – à des bureaux au design sobre et linéaire. Le bois devient un protagoniste prestigieux et confère à l'espace une autorité rassurante.

Bei der klassischen Version kombiniert ODEON die Wärme der Holzausführungen – helle Eiche, dunkle Eiche und Nussbaum Canaletto – mit Schreibtischen mit nüchternem und geradlinigem Design. Das Holz wird so zum Hauptdarsteller und verleiht dem Raum eine vertrauensserweckende Autorität.

En su versión más clásica ODEON combina el calor del acabado madera -Roble claro, Roble oscuro y Nogal negro- con escritorios de diseño sobrio y lineal. La madera se convierte en un prestigioso protagonista y aporta una autoridad tranquilizadora en el espacio.

Per un design più moderno possono essere utilizzate scrivanie in vetro retrolaccato con cornice in alluminio spazzolato lucido, abbinata a credenze con ante scorrevoli in acrilico colorato. L'utilizzo del bianco per strutture e contenitori offre il supporto ideale per inserire dettagli colorati personalizzati.

For a more modern design, desks are available in back-lacquered glass with a brushed and polished aluminium frame, matched with cupboards with sliding doors in coloured acrylic. The use of white for structure and storage units is ideal for including customized coloured details.

Pour un design plus moderne, on propose des bureaux en verre rétrolaqué avec cadre en aluminium brossé brillant, associés à des armoires à portes coulissantes en acrylique coloré. Choisir le blanc comme coloris des structures et des caissons, c'est créer le support idéal pour ajouter ensuite des objets personnels de décoration colorés.

Für ein moderneres Design können hingegen Schreibtische mit rückseitig lackierten Glasplatten und Rahmen aus glänzend gebürstetem Aluminium eingesetzt werden, die von halbhohen Schränken mit Schiebetüren aus farbigem Acryl begleitet werden. Die Farbe Weiß bei Strukturen und Schrankelementen bietet außerdem den idealen Hintergrund für den Einsatz individueller farbiger Details.

Para obtener un diseño más moderno se pueden utilizar escritorios de cristal lacado por detrás con marco de aluminio cepillado brillante combinados con artesas de puertas correderas en acrílico de colores. El uso del blanco en las estructuras y los contenedores ofrece un soporte ideal para introducir detalles de colores personalizados.

Una seconda versione di scrivania presenta una gamba laterale a tutta lunghezza sulla quale poggiano sia il piano scrivania che il piano dattilo. Il pannello strutturale è dotato di profili metallici orizzontali dove possono essere agganciati, internamente ed esternamente, mensole e accessori.

An additional desk type has a full-length side leg that supports the desktop and keyboard top. A structural panel is equipped with horizontal metal profiles, where shelves and accessories can be internally and externally hooked on.

Dans cette version, le bureau présente sur un côté un pied panneau où reposent aussi bien le plateau avant du bureau que celui du retour. Ce pied panneau est doté de profils métalliques permettant d'accrocher, aussi bien sur sa face interne que celle externe, des étagères et des accessoires.

Eine andere Schreibtischversion präsentiert sich mit einem seitlichen Stützbein über die gesamte Länge, auf dem sowohl die Schreibtischplatte als auch der Anbautisch aufliegen. Die Strukturplatte ist mit waagrechten Metallprofilen ausgestattet, in denen von innen und außen Borde und Zubehörteile eingehakt werden können.

Una segunda versión de escritorio presenta una pata lateral desde el sobre hasta el suelo en la que apoyan tanto el sobre del escritorio como el del ala auxiliar. El panel estructural está provisto de perfiles metálicos horizontales donde pueden engancharse baldas y accesorios, internamente y externamente.

Oltre alla scrivania con gamba pannellata è disponibile anche quella con contenitore laterale strutturale in legno, in cui la prossimità dei vani contenitori con cassetteria integrata garantisce la massima funzionalità all'operatore. L'utilizzo di dettagli rivestiti in cuoio contribuisce ad impreziosire ulteriormente l'ufficio direzionale.

In addition to a panelled leg, a desk with a structural side storage unit in wood is also available. When placed near storage compartments with incorporated drawer unit, it guarantees maximum functionality for the operator. Upholstered details in hide further embellish the executive office.

Une autre version de bureau avec pied panneau, c'est celle avec caisson latéral en bois garantissant une excellente fonctionnalité de l'utilisateur grâce à la proximité des éléments de rangements avec tiroirs intégrés. La présence de certains détails revêtus en cuir contribue à enrichir encore davantage ce bureau directionnel.

Neben dem Schreibtisch mit verkleidetem Stützbein ist auch ein Modell mit seitlichem strukturellem Möbelement aus Holz lieferbar, wobei die griffbereite Anordnung der Stauräume mit integriertem Schubladenschrank maximale Zweckmäßigkeit garantiert. Lederbeschichtete Details schenken dem Direktionsbüro eine zusätzliche elegante Note.

Además del escritorio con pata recubierta con paneles existe una versión con contenedor lateral estructural de madera en la que la proximidad de los distintos contenedores con cajonera incorporada garantiza la máxima funcionalidad al operador. El uso de detalles revestidos en cuero embellece la oficina de dirección.

odeon

ODEON propone tavoli riunione in melaminico o essenza di legno sostenuti da basamenti metallici cilindrici oppure da gambe pannellate collegate tra loro da travi strutturali ispezionabili in alluminio anodizzato. I piani possono avere forma rettangolare o sagomata e, in quanto modulari, consentono di realizzare tavoli composti anche di grandi dimensioni. Attraverso comodi flip-top in alluminio a doppio verso di apertura, gli utilizzatori possono avere accesso al cablaggio che, nel caso delle gambe pannellate, viene raccolto all'interno delle travi strutturali.

ODEON offers meeting tables in melamine or wood finishes supported by cylindrical metal bases or panelled legs connected by accessible structural beams in anodized aluminium. Tops are either rectangular or shaped and, as they are modular, enable you to create large sectioned tables. With practical flip-tops in aluminium with a 2-way opening, users can access cabling which is housed inside the structural beams for panelled legs.

ODEON propose des tables de réunion en mélaminé ou en essence de bois, avec des piètements cylindriques métalliques ou avec des pieds panneaux reliés entre eux par des poutres structurelles inspectionnables en aluminium anodisé. Les plateaux sont disponibles en version rectangulaire ou façonnée et, étant donné qu'ils sont modulaires, il est possible de réaliser des compositions de plateaux même de grandes dimensions. Grâce à de pratiques flip-tops en aluminium s'ouvrant dans les deux sens, les utilisateurs peuvent accéder facilement au câblage qui, en cas de pieds panneaux, est logé à l'intérieur des poutres structurelles.

Die Kollektion ODEON umfasst auch Versammlungstische aus Melamin oder Holz, die von zylindrischen Grundgestellen aus Metall oder von verkleideten Stützfüßen getragen werden, die untereinander durch Strukturbalken aus eloxiertem Aluminium mit zugänglichem Kabelkanal verbunden sind. Die Platten sind in rechteckiger oder fassonierter Form lieferbar, durch die modulare Bauweise können auch Anbautische von beachtlicher Größe hergestellt werden. Durch bequeme „Flip-Tops“ aus Aluminium mit Öffnung nach zwei Seiten haben die Benutzer jederzeit freien Zugriff auf die Verkabelung, die im Falle der verkleideten Stützbeine im Innenraum der Strukturbalken gebündelt wird.

ODEON propone mesas de reuniones revestidas en melamina o madera apoyadas sobre bases metálicas cilíndricas o sobre patas recubiertas con paneles conectadas entre sí mediante travesaños estructurales inspeccionables de aluminio anodizado. Los sobros pueden tener forma rectangular o perfilada y, al ser modulares, permiten realizar mesas compuestas incluso de grandes dimensiones. Gracias a sus cómodas tapas abatibles de aluminio con doble dirección de apertura, los usuarios pueden acceder al cableado que, en el caso de las patas recubiertas con paneles, se oculta en el interior de los travesaños estructurales.
